More cone zone news. From now through mid-January, 236th Street will remain closed from U.S. 31 to Deming Road. Bridge work just east of Anthony Road is anticipated to be complete mid-January 2025. The road will open then, but the remaining construction work will resume as weather allows, tentatively April 1, 2025. At that time, 236th will be closed through the completion of the project. Project completion is estimated to be early Fall 2025.

Three Things You Should Know

1 Holy Christmas Sells! It looks like Indiana is a big state for "regifting" Christmas presents. According to our friends at BadCredit.org, 3,000 people were surveyed to estimate the value of America's regifting economy. It turns out it's pretty significant: the regifting economy is worth a staggering \$11 billion for the whole country, with 43 percent of Americans (over 110 million people) admitting to regifting or reselling unwanted presents. California generates the biggest regifting economy, at \$1,377,846,471. Indiana's regifting economy also turns out to be substantial. A third (35%) of Hoosiers say they plan on profiting from gifts received this festive season, equating to 1,895,682 regifters in the state. This means that Indiana's regifting/reselling economy is worth \$198,098,819!

2 The unemployment rate of the State of Indiana in November was recorded to be 4.4 percent, according to the Indiana Department of Workforce Development. By comparison, the national unemployment rate reported for November was 4.2 percent. In addition, Indiana's labor force participation rate is 63.4 percent compared to the national rate of 62.5 percent. This rate is the percentage of Hoosiers 16 and older who are either working or actively looking for work. Indiana's total labor force stands at 3,442,250 and is at its highest on record.

3 A new study has identified which cities are most likely to produce NFL stars, and Indianapolis is tied for ninth in the country. The research, conducted by sports data experts Lineups, examined over 2,800 NFL players to find the most common birthplaces. Houston, Detroit, Miami, Ft. Lauderdale, Tampa, Jacksonville (Fla.), Atlanta, New Orleans and Charlotte were in the top. Indianapolis was tied with St. Louis and Memphis at nine. Mobile and Cincinnati were tied for round out the top 10.

Ask Rusty - Can Wife Claim Now and Get His Half Later?

Social Security Matters

This article is intended for information purposes only and does not represent legal or financial guidance. It presents the opinions and interpretations of the AMAC Foundation's staff, trained and accredited by the National Social Security Association (NSSA). NSSA and the AMAC Foundation and its staff are not affiliated with or endorsed by the Social Security Administration or any other governmental entity. To submit a question, visit our website (amacfoundation.org/programs/social-security-advisory) or email us at ssadvisor@amacfoundation.org.

Dear Rusty: My wife will reach her full Social Security benefit at 66.5 years of age which is just under 2 years away for her now. If she were to begin to get her monthly check now (i.e. early), would that prevent her from being eligible for the spousal benefit to receive half of what I am currently drawing?

Signed: Curious Husband

Dear Curious: If your wife claims her own SS retirement benefit now (e.g., at 64.5 years), and you are already collecting your own SS benefit, then she will be automatically deemed to be filing for her spousal benefit immediately when she claims her own benefit (she does not have the option to defer claiming her spousal benefit until later). This is a change made by the Bipartisan Budget Act of 2015, which requires all

those first claiming SS to file for ALL benefits they are eligible for when they claim. What that would mean is that your wife's benefit now, including her spousal boost from you, would be actuarially reduced by the number of months early she claimed. Her own SS retirement benefit would be permanently reduced by about 15%, and her "spousal boost" (the additional amount she would get as your spouse) would be reduced by about 19%, yielding a combined benefit which is roughly 42% of your full retirement age (FRA) SS benefit.

The only way your wife can get half (50%) of your FRA benefit entitlement is by waiting until her own full retirement age (66 years and 10 months) to claim. Note too that

Medigap Plans Available With Medicare

A new bill, SEA 215 was introduced and passed in Indiana in Spring of 2024 that impacts Medicare.

As of Jan. 1, there will be guaranteed issue into medigap plans for people under 65. What does this mean? This means that after Dec. 31, 2024, any Medicare Supplement Plan (Medigap) that is available to those with Medicare will also have to provide that same plan, or an equivalent, available for those with Medicare due to disability or ESRD.

WHAT: Beginning on or after Jan. 13, 2025, Pleasant Street will be closed to through traffic between 13th Street and 16th Street. The closure will last until Phase 2 is complete in early 2026.

WHERE: Pleasant Street between 13th Street and 16th Street.

Pleasant Street Closing Again

It may be a new year, but there's not going to be anything new about seeing orange barrels, traffic cones and construction.

This is Noblesville and Hamilton County - and while we continue to proudly be one of the fastest growing places in the state (as well as one of the best places to live) - the cost for that includes road construction. And of course, those who live in or around Pleasant Street - or travel that way - are used to the hassles that come along with improvements.

So get ready for the next phase!

The Reimagine Pleasant Street project announced that around Jan. 13, Pleasant Street will be closed to through traffic between 13th Street and 16th Street. The closure will last until Phase 2 is complete in early 2026. The closure is necessary to reconstruct and widen Pleasant Street to four lanes and includes replacement of the bridge over Wilson Drain.

## Local Police Chase Ends in Henry County

Police ended the year in pursuit of a suspect who allegedly pointed an AK-47-style firearm at a man near Fortville.

Around 11:15 a.m. on New Year's Eve, the Hamilton County Sheriff's Office responded to the 16000 block of Province Court in Hamilton County near Fortville following a weapons complaint. The initial caller reported that her husband was threatened when leaving the neighborhood, stating that a suspect wearing a ski mask pointed an AK-47-style rifle at him. Upon arrival, deputies confirmed that no shots had been fired but verified the reported threat involving the firearm.

A deputy patrolling the area located a vehicle matching the suspect vehicle's description, including its make, color, and license plate. As the deputy followed the vehicle out of the neighborhood and

attempted a traffic stop, the suspects fled, initiating a pursuit. The chase spanned multiple counties, beginning in Hamilton County and continuing through Hancock County and Madison County before turning east onto U.S. 36 into Henry County. Hamilton County deputies terminated the pursuit near 250 E. on U.S. 36.

Shortly after, Middletown Police located the suspect vehicle, which had crashed at U.S. 36 and 500 W. Witnesses reported seeing two black male suspects fleeing the crash site on foot, heading southeast into a nearby farm field. Law enforcement established a perimeter and deployed drones, K-9 units, and additional personnel in an effort to locate the suspects. Despite exhaustive search efforts, the suspects were not apprehended. The suspect vehicle was towed from the scene and the investigation remains active and ongoing.

The Sheriff's office thanks the Henry County Sheriff's Office, the Madison County Sheriff's Office, New Castle Police Department, the Pendleton Police Department, the Middletown Police Department and Hamilton County EMA for their assistance. The Hamilton County Sheriff's Office is committed to ensuring public safety and resolving this matter. Anyone with information regarding this incident is encouraged to contact our office at (317) 773-1282 [non-emergency contact number] or submit tips anonymously through our website at <https://www.hamiltoncounty.in.gov/FormCenter/Sheriff-s-Office-4/Submit-a-Crime-Tip-44>

your wife’s spousal benefit will be based on your FRA entitlement, so if you claimed earlier or later than your own full retirement age, her spousal benefit will still be based on your FRA entitlement.

Also, your wife should be aware that anyone who claims early is subject to Social Security’s “earnings test,” which limits how much can be earned while collecting early benefits. Thus, if your wife is working, she will be restricted on how much she can earn before Social Security takes away some of her benefits. FYI, the earnings limit changes annually, but for 2025 it is \$23,420 and, if that is exceeded, SS will take away \$1 in benefits for every \$2 over the limit. And, FYI, the earnings limit goes up a lot during the year FRA is attained, and the

earnings test no longer applies once full retirement age is reached.

- You can drop your Medicare Advantage Plan.

- You can return to Original Medicare.

- You can add a standalone Part D Plan, but only if you dropped your Medicare Advantage Plan and returned to Original Medicare.

To change your drug coverage during this period, you must disenroll from your Medicare Advantage Plan and join a different Medicare Advantage Plan with prescription drug coverage or Original Medicare with a stand-alone Part D plan.

Changes made during the Medicare Advantage OEP will take effect the first of the month following the month you enroll. If you want to keep your Medicare Advantage Plan, you should not use the MA OEP to change drug coverage.

Keep in mind, if you go back to Original Medicare now, you may not be able to buy a Medicare Supplement Insurance (Medigap) policy without being

underwritten. This means you could pay higher premiums and have a waiting period for pre-existing conditions or be denied coverage.

# \$3.6M in Federal Grants Coming to Indiana

Lt. Gov. Suzanne Crouch and the Indiana Office of Community and Rural Affairs announced 20 Indiana communities will receive more than \$3.6 million in Owner-Occupied Rehabilitation Grants and Planning Grants through the Community Development Block Grant program.

Owner-Occupied Rehabilitation grants will be used to empower these communities to directly fund homeowners of low-to-moderate income to make needed repairs on their homes. While communities awarded Planning Grants will use the funding to develop plans for long-term planning efforts.

“Each of these grant programs will contribute to improving the lives of Hoosiers across our state,” said Lt. Gov. Crouch, Indiana’s Secretary of Agriculture and Rural Development. “I am grateful to the 20 awardees who are committed to investing more into their residents and community development.”

Communities awarded an Owner-Occupied Rehabilitation Grant will establish a program to help fund low- and moderate-income homeowners make repairs on their homes. Eligible repairs include roof repair or replacement, ADA accessibility, heating and cooling replacement,

lighting and electrical upgrades, and water heater replacement.

Owner Occupied Rehabilitation Grants are awarded to the following communities:

- The Town of Bloomfield is awarded \$350,000
- The City of Mitchell is awarded \$350,000
- The City of North Vernon is awarded \$350,000
- The City of Tell City is awarded \$350,000
- The City of Martinsville is awarded \$350,000
- The City of Bedford is awarded \$300,000
- The City of Seymour is awarded \$350,000
- Henry County is awarded \$500,000

“Congratulations to the communities receiving these important grants, these funds are vital to improving the quality of life throughout the Hoosier state,” said OCRA Executive Director Duke Bennett. “I look forward to seeing how these improvements will benefit our rural cities and towns and encourage others to apply when the next round opens.”

The Planning Grant program encourages communities to plan for sustainable community development with the aid of subject matter experts and community input. The applications being funded this quarter address comprehensive planning efforts, water utilities, downtown revitalization and broadband readiness.

Comprehensive Planning Grants are designed to aid communities in evaluating assets and

identifying opportunities to address current needs in the following areas: land use, government capacity, public services, placemaking, economic development, housing, transportation, agriculture, natural resources and historic resources.

Comprehensive Planning Grants of \$50,000 each are awarded to the following communities:

- The City of Aurora
- The Town of Brookville
- The Town of Goodland
- The Town of Lewisville

Utility Study Planning Grants provide a summary of potential issues and opportunities across drinking, wastewater and stormwater infrastructure. By completing this planning, communities will be able to make decisions regarding their most urgent water needs while understanding how each system works in context with other utility systems.

Utility Study Planning Grants are awarded to the following communities:

- The Town of Carthage is awarded \$90,000
- The Town of Dana is awarded \$60,000
- The Town of Dayton is awarded \$86,000
- The Town of Kewanna is awarded \$58,320

- Fayette County is awarded \$60,000
- Rush County is awarded \$87,000

Downtown Revitalization Planning Grants aim to provide a comprehensive strategy for revitalizing the downtown area in rural communities by addressing demographic, economic and social aspects, as well as physical and cultural conditions. The plan serves as a roadmap for leveraging current assets, securing funding sources, and building community engagement to revitalize the downtown business district area and promote economic growth.

A Downtown Revitalization Planning Grant of \$30,000 is awarded to the Town of Oxford.

Broadband Readiness Planning Grants are put into place for communities to develop a plan that will educate, create and identify ways to improve broadband speeds in their areas.

A Broadband Readiness Planning Grant of \$50,000 is awarded to Pulaski County.

Funding for OCRA’s CDBG programs originates from the U.S. Department of Housing and Urban Development’s Community Development Block Grant program and is administered for the State of Indiana by OCRA. For more information, visit [in.gov/ocra/cdbg/](http://www.in.gov/ocra/cdbg/).

## Winter Officially Here: Are You Ready?

Winter officially began at 4:21 a.m. Saturday, Dec. 21. We know we’ll see freezing rain, snow and plummeting temperatures. Families should prepare now to stay safe, warm and protect their homes with guidance from FEMA’s #WinterReady campaign.

“It’s never too early to think about what you would do if stranded on the side of the road or stuck at home without power during a snowstorm,” said FEMA Region 5 Regional Administrator Tom Sivak. “Taking steps today—like making a plan and assembling emergency kits with essential items like food, water, medications and pet supplies—can make all the difference when winter weather strikes.”

Here are a few things to keep in mind as winter rolls in:

**1. Wear a coat and dress in layers if you work outside or participate in outdoor activities.** This will help regulate your body heat and keep you warm. Be sure to keep your skin covered by wearing a hat, scarf and mittens. Hats help keep the body warmer and mittens are more effective than gloves.

**2. Know what to do if**

**you experience frostbite or hypothermia.** If the cold causes pain in your body, numb or tingling skin, slurred speech, or shivering, go indoors immediately. Remove wet clothing, wrap up in a warm blanket and if you can, sip on warm fluids to stabilize your body temperature.

**3. Gather supplies for your emergency kits. It’s important to keep an emergency kit in your home.** This kit should include nonperishable food, a can opener, water, blankets, prescription medications, a weather radio, a flashlight with extra batteries, a portable cell phone charger, kid-friendly activities, and pet food. It’s also a good idea to make sure everyone in the family has the phone numbers for emergency contacts. It’s also important to keep an emergency kit in your vehicle in case you are stranded in the cold. This kit should include an ice scraper, jumper cables, a small shovel, blankets, nonperishable food, water and a portable cell phone charger.

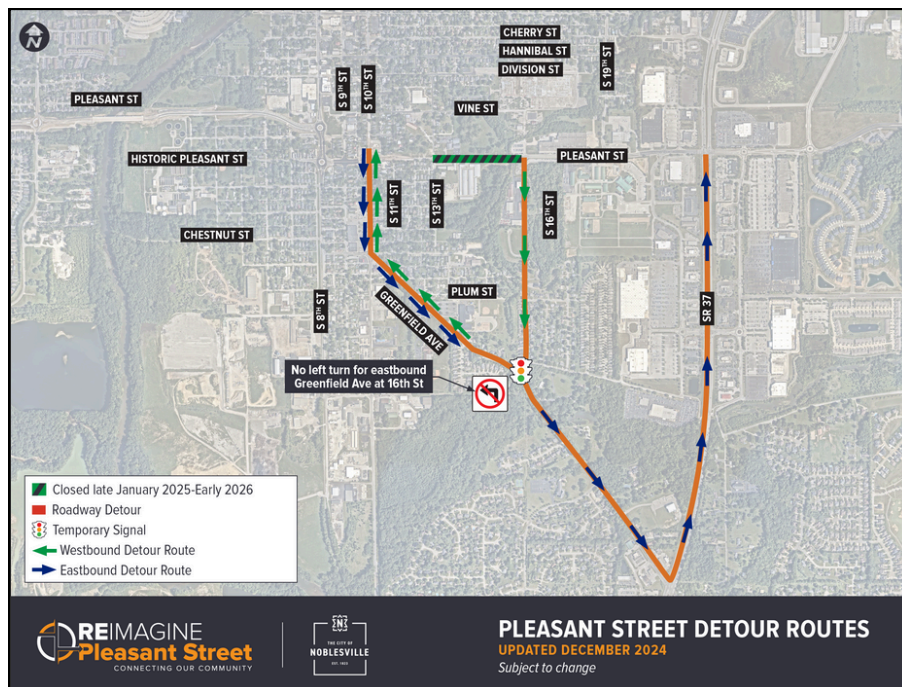

**4. Heat your home safely.** If you use a space heater, remember to keep it at least three feet away from items

like curtains, rugs, furniture, bedding and other items that can burn. The heaters should be plugged directly into the wall and the cords should not be frayed or damaged. Never use a gas stovetop or oven to heat your home. This can release carbon monoxide into the air and cause serious health risks, even death.

**5. Check on elderly friends and neighbors.** Older adults often have a harder time regulating body temperature, so they are at a higher risk of experiencing cold-weather related injuries. Be sure to check in on them to see if their heat is working properly and they have what they need to make it through the cold.

The #WinterReady campaign also offers messaging, graphics and resources to help educate the public on the risks of winter weather, promote fire safety and urge caution when travelling in winter weather.
